

WHAT IS PBIS?

Positive Behavior Interventions and Supports

Consistent language is used in each space in the school.

Emphasis is on teaching and reconciliation, not punishment.

School staff determines acceptable behavior in all areas of school including the Church.

Staff decide what consequences will be - developmentally appropriate and match the behavior - when students don't exhibit decided-upon behavior.

School staff teach these behaviors to students.

Staff reteach when students struggle with behaviors.

Classroom and school celebrations occur at decided-on intervals.
