

## Loyola University Medical Center Clinical Research Department Research Fee Schedule

---

The following fees will be assessed for clinical research studies requiring LUMC Clinical Research support:

Investigational Device Start Up: \$100

The start up fee includes personnel effort in coordinating and participating in in site qualification and site initiation visits, completing required training, and providing requested documentation to the study sponsor for management of an investigational device. It covers all effort up to and through the site initiation visit. The fee will be incurred on the day of the site initiation visit.

Investigational Device Management: \$100/shipment

This fee covers the cost of receiving, securing, and tracking an investigational device delivered to LUMC.

Investigational Device Storage: \$25/month

Investigational devices are stored in a secured, environment-controlled location. Investigational devices to be stored on site for more than 5 calendar days will incur a charge of \$25 per month. The fee will be assessed at the beginning of each month the device is on site.

Training (on-going): \$50/hour

All training required after completion of the site initiation visit will be billed at the rate of \$50 per hour per personnel.

Equipment Storage: \$200 annually

If sponsor-provided equipment is to be maintained in LUMC, an annual fee of \$200 will be billed to study. The fee will be incurred on the day the equipment arrives at LUMC and annually thereafter until the equipment is removed from LUMC.

Claims or billing information: \$20 per patient per request

Requests for patient claims or other billing information is provided through the Clinical Research department. The study will be billed for \$20 per patient per request at the time the requested documentation is provided to the research team.
